VOL. XXIV, NO. 157 GAINESVILLE, FLORIDA, SATURDAY, AUGUST 10, 1907 TEN CENTS A WEEK

A FINAL CONFERENCE

President Roosevelt and Secretary Taft to Confer.

WILL MEET AT OYSTER BAY

Conference with President Will Possibly Be More Significant Politically Than Otherwise—Taft's Prospective Tour.

Chicago, Aug. 9—A dispatch to the Record-Herald from Washington, says:

Secretary of War Taft will be back in Washington next week from his vacation. On the way from his retreat in Canada, the secretary of war will call at Oyster Bay for a long and final talk with President Roosevelt before leaving on his trip to the Philippines and around the world in September. The conference with the president will possibly be more significant politically than otherwise.

It is regarded as probable that if President Roosevelt has thought of any new plan of eliminating himself from consideration in connection with the nomination on the national ticket a year hence, more absolutely than through his utterance on the night of the election in 1904, he may lay it before Secretry Taft when they meet. The secretary will, therefore, be in a position to go across the continent on his speech-making tour with definite knowledge [illegible] the things talk is to be [illegible].

Some facts [illegible] a day or two regarding [illegible] of the talk which Secretary [illegible] will deliver to the people when he opens his campaign in earnest. First and foremost in many particulars will be the address at Columbus. Considerable data has been supplied relative to the railroad situation in all its phases, the deduction therefrom being that the secretary will declare at the start a policy in furtherance of the Roosevelt principles, which will be prosecuted at his hands, if he is nominated and elected chief executive to succeed the present incumbent.

Chicago, Aug. 8.—Friends here of Secretary Taft who is about to start on a tour of the world have heard that he will reach this city Monday and that on the following day he will go to Oyster Bay for an extended conference with President Roosevelt, presumably regarding affairs of the government and of his trip. Mr. Taft's long tour will begin on August, 18, when the secretary will travel leisurely across the continent. On the way he is scheduled to deliver a few addresses. He will arrive at Seattle in time to sail in the Steamer Manchuria on September 10.

On this trip to the east Mr. Taft will be accompanied only by his wife, his 11-year-old son, Charlie, and his secretary, Frank C. Carpenter.

Montico Taft, a Filipino, who adopted him as a father a year or so ago, will travel in attendance upon Mr. Taft.

When Secretary Taft was governor of the Philippines, Montico was a "Ricksaw boy" whom he often employed. He became interested in him and did many things for his welfare. Two years ago Montico found his way to this country, sought out Mr. Taft and announced that he had come to be his servant. Since then he has been his faithful attendant.

According to his native custom, he calls him father.

From Seattle Mr. Taft will travel to Manila by way of Japan and China. His stay in the islands will be short.

The return from the Far East will be made by the trans-Siberian railroad and Europe. Mr. Taft will travel unofficially as soon as he has discharged his mission in Manila, but the tour through the Far East of a man so high in the administration will be watched with interest by the competitors of the United States. With the completion of this trip Mr. Taft will have established a record for a cabinet minister's wanderings. It is reckoned that when he sees Washington again he will have traversed [illegible]

Several hundred feet of track of the Chicago and Northwewstern railroad north of Trempeleau were washed out.

HUMAN SKELETON FOUND.

Supposed To Be That of a Smuggler-Union Miner.

Denver, Colo., Aug. 9.—A special to the News from Telluride, Colo., says:

"What is said to be the skeleton of W. J. Barney, the timberman, employed in the Smuggler-Union mine, who mysteriously disappeared in June, 1901, was exhumed Wednesday near the Alta mill, 12 miles from town, by General Bulkely Wells, manager of the Smuggler-Union mining company, and others.

According to Mr. Wells' account, the remains were found in an improvised grave, and its location was pointed out by Steve Adams, now in jail in Idaho, awaiting a second trial on the charge of murder. A part of the skeleton, including the teeth, was brought down to town by General Wells for identification.

Barney incurred the ill-will of the union here by working in the Smuggler-Union mine after the strike in April, 1901. It was this strike that caused the riots in July of that year. While here Adams is said to have pointed out to Wells the fir tree, in the darkness of which he claimed to have stood when he fired the fatal charge of buckshot into the back of Manager Collins.

Coal Trade Dispute Settled.

Belfast, Ireland, Aug. 9.—The dispute in the coal trade has been settled, and work will be resumed. The troops again took possession of the streets, the factories are opening and the normal conditions of business are gradually returning.

OILY JOHN ATTACKED

Prof. Zueblin Scores the Head of the Oil Trust.

SOCIALISM AND MAGNATES

Says That Rockefeller and Other Trust Magnates Are Doing More to Make Socialism Possible Than Its Most Fervent Advocates.

Chicago, Aug. 9. John D. Rockefeller, founder and supporter of the University of Chicago, was bitterly attacked Wednesday by Professor Charles Zueblin, of the department of sociology of that institution.

A similar attack was made by Professor Bushnell, of Washington, who declares that the whole world is turning to socialism in an effort to escape the burdens that have been piled on by the class to which Rockefeller belongs.

Professor Zueblin was greeted by a large audience when he appeared in Kent theater to deliver his second lecture.

Not only did he express emphatic opinions about the head of the oil combine, but he also criticised the Standard Oil company itself. He declared the defense made for the big corporation in the recent case in which it was fined $29,240,000, that it had only committed an offense that is common in business, was weak and cowardly.

The subject of Professor Zueblin's lecture was "The Constrafiat of Orthodoxy." He assailed orthodoxy not only in religion, but in economics, politics and social life, declaring it to be the cause of many of the present day evils.

"John D. Rockefeller, J. Pierpont Morgan, E. H. Harriman and the other trust magnates," he said, "are doing more to make socialism possible than are its most zealous adherents. They are consolidating the industries and thereby simplifying the process for state ownership, which constitutes socialism."

JUDGE GROSSCUP'S VIEWS.

States Criticised for Interfering with Federal Authority.

Chicago, Aug. 9.—Judge Peter S. Grosscup of the United States circuit court, while addressing the traffic club at the Exmoor county club Tuesday night, severely criticized states for interfering with federal authority in matters of interstate traffic.

"The federal court," he said, "will retain their authority over interstate commerce and their right to regulate and control it, despite the frantic efforts which are made in several parts of the country by state authorities to deprive them of the right."

"There is too much federal regulation now, "interrupted a prominent member of the traffic club.

Judge Groscup paused a moment and replied:

"You are wrong, my friend. The fault, if fault there is, is not with the amount of federal regulation, but with the character of some of it in the past. You cannot have too much federal regulation, if it is wisely administered."

Russian Bomb Makers Active.

Moscow, Aug. 9.—The police have searched the imperial technical schools and discovered the central revolutionary laboratory for manufacturing bombs of a new pattern and tremendous explosives, regular supplies of which were being shipped to various interior points. The police seized a number of bombs, six hundred time-fuse appliances, a typographic outfit and some forbidden literature, and arrested twenty male and female members of the schools.

TELLS JURY TO INDICT.

Chattanooga Times In Charged with Criminal Libel.

Chattanooga, Tenn., Aug. 9.—In his charge to the Catoosa county grand jury for the present term of court, Judge Fite instructed the jury to return an indictment charging the Chattanooga Times with criminal libel. He stated that the Times had recently charged Sheriff Pendleton, of Catoosa county, and other Georgia officers with "fee grabbing" and intimated that they were a set of grafters.

The allegation came up in connection with the recent numerous arrests of Chattanooga autoists who have been arrested in this county on charges of violating the various auto laws and regulations of Georgia.

"The Chattanooga Times," said Judge Fite in his charge, "is attempting to build up a wall between Georgia and Tennessee which will keep Chattanoogans out of Georgia, and Georgians out of Chattanooga. We have laws in Catoosa county which Chattanoogans and Georgia must respect and obey alike, and when the former disregard our laws they will have to suffer as Georgians do. Neither do we propose that a paper shall charge our officers with fee grabbing and grafting, etc., when they are merely upholding the laws which they have sworn to enforce. The Chattanooga Times is guilty of criminal libel, and an indictment to that effect should be brought against it."

BRIMFUL OF PROSPERITY.

Railroad Official Speaks of Conditions in the Mississippi Valley.

New York, Aug. 9.—President A. J. Davidson, of the St. Louis and San Francisco arm of the Rock Island system, has returned to New York from a tour of this road. His trip took him through the cotton country of the Mississippi valley and the grain belt of Kansas, Oklahoma and western Texas. He talked prosperity in the Rock Island office Wednesday while stock tickers were showing opposite views in Wall street.

"It is mighty hard for the men in our territory," he said, "to understand the news that comes to them form the east of business recessions and approaching hard times. All the country that I have traveled over is brimful of prosperity, and it looks as if the whole stretch, from Chicago to Mexico, is in for another year of record-breaking business.

"The apprehension about the crops, for which there was foundation in planting season, when the late spring and heavy rains made replanting necessary, and the crop outlook is now splendid."

Final Act of Solons.

Montgomery, Ala., Aug. 9.—The final act of the Alabama legislature which adjourned Wednesday night, was for the erection of a monument to Jefferson Davis, first and only president of the Confederacy. It will stand within a few feet of the place where he received the oath of office, and just in front of the old capitol, where the ceremony took place, yet the state house of Alabama. A bill has also become a law providing for the anniversary celebration of the battle of Horse Shoe Bend, where Jackson broke the back of the Indian wars.

Plans Completed.

San Francisco, Aug. 9.—Colonel William H. Huer, engineer corps, U. S. A., retired, has practically completed the plan for the comprehensive improvement of San Francisco water front and the building of 180 main wharves which will give sixty miles of berth room for vessels engaged in the commerce of this port. Colonel Huer's work has been done under direction of the [illegible] commission who has undertaken the task of providing a complete plan for the development of docks.

Consulates Not Injured.

London, Aug. 9.—A special dispatch from Tangier says that the greater part of Mazagan was destroyed by the bombardment, but the consulates were not injured. It is reported that during the shelling of Mazagan the Moors attacked the Jewish quarter of the town and killed many persons.

PITTSBURG TRAGEDY

Hotel Proprietors Fatally Shot by Alleged Priest.

THEY WERE TWIN BROTHERS

Without Warning, It Is Said, the Priest Sought the Dining Room of the Hotel and Opened Fire on the Brothers.

Pittsburg, Pa, Aug. 9.—Ludwig Sczegil, said to be an unattached Polish priest of Chicago, walked into a South Side hotel at 1111 Carson street Thursday, and without warning, it is said, shot and fatally injured the two proprietors, twin brothers, named Steven and Andrew Starzynski.

Steven died within an hour, and the physicians say Andrew cannot survive his wound.

The cause of the shooting is a mystery

Sczegil, who was arrested, maintains a sullen silence, and nothing could be learned from either of his alleged victims.

When Sczegil came to Pittsburg, about ten days ago, he went to the hotel kept by the brothers, accompanied by a woman, whom he introduced as his housekeeper. They secured an apartment of two rooms. The woman, who gave her name as Francisca Sprolck, is held as a suspicious person. She denies all knowledge of the shooting.

Sczegil it is said, had been drinking heavily ever since he arrived in the city.

It was stated by Mrs. Starzynski, wife of Andrew, that shortly before the shooting a noise was heard in the apartments occupied by Sczegil and the woman. Her husband, she said, went upstairs and reprimanded the pair for making a disturbance. He then joined his brother in the dinig room. In a few minutes, she says, the priest appeared and opened fire.

The prisoner wears the partial costume of a clergyman, although his attire does not indicate to what denomination he belongs.

Chicago, Aug. 8.—The name of Ludwig Sczgil does not appear in the city directory, and inquiry among the clergymen of the Polish churches has failed to reveal anybody who knoew of him.

ALGER'S BOOKS BARRED.

Not Wanted in Public Library of Worcester, Mass.

Worcester, Mass., Aug. 9.—The works of Horatio Alger, Jr., the noted author of "books for boys," have been barred from the shelves of the Worcester public library.

Alger is now in the same class as Mark Twain, Robert W. Chambers, Walt Whitman and other well known producers of literature, some of which works have been barred from free public libraries in Worcester county towns and cities.

At the library the reason given for barring Alger's books, which had been on the shelves for years, is that they were not truthful and are too sensational.

Indian Prince for Cornell.

Ithaca, N. Y., Aug. 9.—Prince Victor Marayah, of India, whose father rules one of the provinces of India, has announced his intention of entering the Cornell college of agriculture next fall. His father was impressed by the stories of Cornell, and which other Indians here have spread about India and thought a course here would do him good. The prince, who is an athlete, is to try for a place on the Cornell football team.

When Hissed He Resigned.

Paris, Aug. 9.—Because he was hissed by the townspeople of Montpelier when he arrived there Sunday last after having been released from prison, Marcellin Albert, the leader in the recent disturbances in the wine growing region of the south, has resigned his membership in the Argeliers committee.

ALACHUA COUNTY AND HARD ROADS

Commissioners Are Accomplishing Much in This Direction.

THE PRAIRIE CREEK ROAD

Has Been Completed With the Exception of a Half Mile, Which Gives the People Eight Miles of Solid Roadway in One Direction.

With a determination not to be outdone by more progressive counties of the State in the matter of road-building, the County Commissioners of Alachua county started about four years ago to build hard thoroughfares. This action on the part of the board met with much hearty approval by the people, and it was made an issue in the last campaign, two or three of the commissioners having been elected on that issue.

Interest has grown steadily, the result that the county has now a point of genuine activity in road building. While there was not a hard road in the county a few years ago, Alachua has made excellent progress since the "fever" struck this section, and today the county can show as much mileage as any county in the State, in proportion to the time this work has been going on.

The road gang has been for the past few months engaged on the Prairie Creek road, and have reached a point within a quarter of a mile from the Prairie Creek bridge. They expect to reach the bridge within the next few weeks. The bridge, six hundred feet long, is now being built by the county in readiness for the road, and the advisability of building the road, more was favorably acted upon at the last meeting of the commissioners.

Road building in Alachua county is a healthy state, and before many years every important section in the county will be connected with the County Commissioners' system. In the construction of the roads the board has provided substantial bridges over many of the streams, and proposes to increase the number by erecting a steel bridge across Lake Wauburg in a short time.

LETTER FROM CAPT. ELMORE.

He Don't Appreciate What He Considers an Insulting Slur.

Editor Sun: In a recent issue of The Jacksonville Times-Union I read this notice, i. e. "The 'Pension-Grabbers,' are informed that they will have to wait for their money, as the tax has not even been levied, much less collected." As I quote from memory I quote the idea, rather than the exact words, except the one word "Pension-Grabbers."

Now, Mr. Editor, that is a hard word, and when applied to the old snow-capped Confederate Veteran, is a direct insult not only to him but to each and every member of the Legislature, who, through their action, placed the old Vet. in the position he occupies. The names of these Legislators should be recorded in letters of gold upon the pages of Florida's history, and enshrined forever in the hearts of every old veteran in the State.

"Pension-Grabber!" The old gray man, who wore the gray, would scorn to "grab" anything except the opportunity of resenting a vile slander. Have they asked or begged for anything? No, sir; they have simply, by the act of an intelligent and refined body of men, been placed in a position to thankfully receive (not grab) in their declining years a noble and substantial evidence of their State and country's gratitude.

I will venture to assert that the man who penned that word "Pension-Grabber" as applied to the men who wore the gray, has never heard the ring of a minnie ball, the boom of a cannon, the bursting of shell or the clash of a saber. The soul of a man who would cast a slur upon any old Confederate Veteran is small indeed—in fact, so small that it could easily fly through the quill of a humming bird's wing, or dance a hornpipe upon the point of a cambric needle.

"Honor and fame from no conditions rise.
Act well thy part, in this the honor lies."

The old Vet. has "acted well his part" upon this stage of life, and gained the plaudet of the whole civilized world.

How about this, "Pension-Grabber" scribbler? Yours truly,

A. R. ELMORE, Old Vet.

They Block the Streets.

Considerable complaint is being made, and justly so, of the congested condition of the street in front of the Atlantic Coast Line depot upon the arrival of trains, occasioned by the various hacks and drays.

Not only is the public inconvenienced, but are in danger, as the drivers of these vehicles are very careless, appearing to have no regard for the safety of the people in their ambitious endeavor to secure business.

This condition of affairs should be remedied by assigning the hackmen to a certain position and requiring them to keep their teams there.

He suffered a great deal on Thursday and Thursday night, and his friends decided that it was necessary to bring him here, where he could secure the professional attention and treatment necessary.

An operation was performed on Mr. Wallace at the Sanitarium Friday afternoon, and it is hoped that he will recover, although his condition is yet critical.

Mrs. Wallace, who was at Clearwater, was notified by wire and is expected to arrive in the city today.

Killed a Big 'Gator.

While seining at the fishing camp of Bruce & Nobles Thursday night an immense alligator became entangled in the sein, almost demolishing the same.

This was an exciting experience with the fishermen handling the net. The saurian was of such dimensions and possessed of such gigantic strength, that the instant he realized he was caught he made a beeline for deep water. The fishermen, not desirous of losing the sein, held fast and were drawn a hundred yards or more out into the lake at a speed that would make an A. C. L. train on the St. Petersburg division look like a nickel's worth of dog-meat.

Fortunately for those faithful men who held each end of the net, however, the 'gator finally turned toward shore, striking shallow water with such force as to become beached, when he was brained with a heavy oak stick.

The saurian measured fifteen feet, it is said—and part of his tail had been broken off in the melee at that.

After having explained his ignorance of the law, Mayor Thomas generously consented to discharge him upon payment of the costs in the case, provided he would secure a license at once, which he did.

Put Clock Out of Business.

About 9 o'clock Friday night, during the severe rain and thunder-storm, lightning got in its work on an electric wire, which put the clock in the court house tower out of business, as far as illumination was concerned.

The stroke was a terrific one, and was severely felt by those who happened to be in vicinity of the square.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause and remove the effect."

ANALYZED

All over the U. S. and in foreign countries the remarkable popularity of Coca-Cola has drawn upon itself the attention and in some cases the criticism of Health and Pure Food Authorities. As a direct consequence Coca-Cola has been carefully analyzed in every section by the most eminent chemists, and never in a single instance has a derogatory report been returned. In fact the consensus of finding is that "THERE IS ABSOLUTELY NOTHING IN COCA-COLA ANY MORE HARMFUL THAN IS FOUND IN TEA OR COFFEE."

A GOOD LAW.

We are just in receipt of the new law enacted by the last Legislature which has reference to the collecting of claims from transportation companies. We trust that this law will prove a solution to the much vexed question of collecting claims from transportation companies. Of course this law will only apply to State shipments, that is, goods shipped from one city to another within the State of Florida.

Below we print the law in full for the information of our business men and readers:

Chapter 5618.

"An Act to require common carriers to pay claims for lost or damaged freight or express and overcharges on freight or express within a certain time and providing that in the event a common carrier fails to pay said claim within said time that such common carrier shall in certain cases be liable for interest on said claim at the rate of fifty per cent per annum, and shall also be liable for a reasonable attorney's fee.

"Be it enacted by the Legislature of the State of Florida:

"Section 1. That it shall be the duty of all common carriers operating within this State and they are hereby required when any person files with, or presents to, them or any station agent of said common carrier to be filed, his claim for any freight or express lost or damaged by said common carrier, or for any overcharge made by such common carrier on any freight or express, to pay the said claim within sixty days from its filing with or presentation to said common carrier or any station agent of such common carrier.

"Section 2. That should any common carrier fail to comply with the provision of Section one (1) of this act, then the said common carrier making such failure shall be liable to the claimant for the amount of his claim and fifty per cent per annum interest on the principal sum of said claim from the date of the filing of the same with, or presentation of the same to the common carrier or any station agent of such common carrier, and when the said claimant shall bring suit and recover judgment for his claim against said common carrier, he shall be allowed the said fifty per cent per annum in addition to the principal sum of said claim, and the same shall be allowed in the verdict giving him judgment. Provided, however, that the claimant shall not recover and have judgment for the said fifty per cent per annum, unless he recovers judgment for a sum which from the principal sum of said claim at an amount greater than the amount which said common carrier had offered and tendered to the claimant in settlement of his claim before the expiration of said sixty days in which the said common carrier is required to pay such claims under the provisions of Section one (1) of this act.

"Section 3. That any common carrier who fails to comply with the provisions of Section one (1) of this act shall, in the event that the claimant shall prevail in an action to recover on his claim, be liable for a reasonable attorney's fee, and it shall be the duty of the court to allow the claimant such reasonable attorney's fee, which shall be fixed by the court, not to exceed fifteen dollars if the amount recovered does not exceed one hundred dollars, and not to exceed fifteen per cent on any amount recovered greater than the sum of one hundred dollars.

"Section 4. That all laws and parts of laws in conflict with the provisions of this act be and the same are hereby repealed.

"Section 5. That this act shall become operative upon its passage and approval by the Governor.

"Approval June 3, 1907."

THE SUGAR INDUSTRY.

Farewell to the sugar industry of the South' says an exchange. Aye, and farewell to the beet sugar industry as well' The sugar men of the country had better find some other field for the investment of their capital, or else try to get a corner on the world's production of wood.

A young inventor of Los Angeles, Cal., has just demonstrated to several capitalists who are to back him with their combined fortunes, that he can manufacture chemically-prepared sugar out of nothing more than wood and water. And it doesn't have to be any particular kind of wood either. Any old fence rail or broken chair, or broomstick will do. With such odd scraps of wood as these, and with a little water and the use of the apparatus of which he is the inventor, Charles P. Stuart, who shall doubtless be known to posterity as the Sugar King, can in a few hours produce half a hundred pounds of the purest, whitest, most finely pulverized sugar in the world. His product is said to be purer than anything we know, for the reason that it contains absolutely no moisture or other foreign substance calculated to increase its weight and bulk, and can readily be granulated by dissolving it in water and allowing it to crystalize.

Sugar, as any chemist will tell you, is composed of 12 parts of carbon, 22 parts of hydrogen and 11 parts of oxygen. The process involves the reducing of the wood to charcoal, converting this into carbon gas, and mixing it with the required amounts of hydrogen and oxygen, which he gets from steam. At a cost of only one dollar for fuel, the inventor claims he can manufacture 100 pounds of sugar from 48 pounds of charcoal and 60 pounds of water, the only other expense being for the water, as the charcoal pays for itself in the by-products given off in the transition from a broken-down buggy to sugar.

The self-centered philosophy of the town-bum and the street whittler—the galoots that want something for nothing—keep alive the pesterous doctrine, "the enforced equality of all mankind."

It does seem that the limit on some poor devils' happiness is the right to pour out their bottled misery on the heart of every new acquaintance they chance to make.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

GEORGIA LEGISLATURE.

Hall Anti-Pass Bill Passed by the House of Representatives.

Atlanta, Aug. 9.—By a vote of 134 to 0 the Hall anti-pass bill was passed by the house Wednesday afternoon, shortly after 12 o'clock. The first clash between the administration, the governor and Bibb was victorious, overwhelmingly.

The house anti-lobbying bill, by Mr. Wright, of Floyd, was passed by the senate by a vote of 27 to 15, after the measure had been so amended as to mean practically to change the present situation. Amendments offered by Senator Felder were adopted striking out the famous "bridling clause," which prohibited a hired agent from talking to a member of the general assembly in private, and the clause which provided that statements of fees paid such agents should be filed with the secretary of state.

Much spirit was injected in the afternoon session of the house Wednesday when Mr. Sheffield of Decatur offered an amendment to the general tax act putting a license of $10,000 upon all clubs which allow intoxicants to be kept in their lockers or in their club premises. This amendment was very promptly voted down. Governor Smith sent a message to the legislature in which, in view of the state's low finances and the fact that the railroad and other corporations of a like nature are not paying any occupation tax, he urges that such tax be assessed against them, and that the rate be not lower than 1 per cent upon their gross receipts.

Secures Diamond Monopoly.

New York, Aug. 9.—News has reached here that the deBeers Diamond company, of South Africa, has purchased the control of the Premier mine, which gives the company practically the diamond monopoly of the world. Diamond merchants do not believe that the deal will affect the price of diamonds in any way, as the deBeers company had the monopoly for many years, until the Premier mine was opened three years ago. The largest diamond in the world was found in the Premier mine about two years ago.

Alabama Legislature Adjourns.

Montgomery, Ala., Aug. 9.—After a session of fifty days of work, which was spread over more than three months, the Alabama legislature adjourned at midnight Wednesday. Much of the closing hours were spent in having fun. Presentation of handsome loving cups were made to Speaker Pelham, Michael and Lieutenant Governor Comer.

Shot Woman, Killed Self.

Asheville, N. C., Aug. 9.—A domestic tragedy was enacted here when Robert Murdock, a well-to-do dealer, shot and killed Mrs. Lamaray, a boarding house keeper, and then shot himself through the heart. Both died in a few minutes. It is said Murdock had been drinking, and came to the woman's house to collect account.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or nourishment is offered you? Or do you want to know something of the composition and character of what you take into your stomach whether as food or medicine?

Most thinking and sensible people nowadays insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to *insist* upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say *for yourself* by sending a postal card request for a *free* booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

"FLYER" KILLS FOUR PERSONS.

Employees of a Hotel Mangled by "Bankers' Special."

Atlantic City, N. J., Aug. 9.—Four employees of the Norwood hotel were instantly killed Wednesday afternoon when their carriage was run down by a Pennsylvania passenger flyer known as the Bankers' Special, at the Cortes avenue crossing here. They were Thomas Edwards, a driver, and Loretta Grace, Jennie McDonald and Hannah Murphy, waitresses.

Edwards had stopped his team at the crossing, when an excursion train drawn up at the station blocked the road. As the excursion train drew out, Edwards started his horses, and his carriage was squarely on the rails when the flyer, southbound, and the approach of which had been hidden by the opposite moving special, tore across the road. Horses and carriage and occupants were ground to bits, the bodies of Edwards and the women being frightfully mangled.

Order Has Been Restored.

Tangier, Aug. 9.—A steamer which arrived here from Casa Blanca reports that quiet has been restored there among the natives, and that the Europeans are all well. The bombardment of the town by the French cruiser Du Chayla [illegible]. The native quarter was much damaged. Additional French forces have been landed at Casa Blanca. The report of the bombardment of Mazagan by the French cruiser Du Chayla is confirmed.

Children In Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Will Construct Links.

Augusta, Ga., Aug. 9.—The Augusta and Florida railroad directors have awarded a contract to the Augusta Construction company to build connecting links. Arrangements were made, taking over the properties of the various roads and they authorized a mortgage to secure bonds to be used to complete the construction of the road. John Skelton Williams, of Richmond; J. William Mittendorf and E. L. Bemis, of Baltimore, were present.

Don't Grumble

When your joints ache and you suffer from rheumatism. Buy a bottle of Ballard's Snow Liniment and get instant relief. Bogy, a prominent merchant at Willow Point, Texas, says that he finds Ballard's Snow Liniment the best all-around liniment he ever used. Sold by W. M. Johnson.

THE RATE QUESTION.

Southern Railroad Will Quit Defying States, It Is Said.

Washington, D. C., Aug. 9.—The executive officials of the Southern railway, [illegible] in connection with [illegible] in North Carolina, have practically decided to abandon the fight [illegible] federal court's nullification of reduced passenger rates in several states of the south.

President Finley and other executive officers of the system went to New York Saturday, and they were joined Monday by Colonel A. B. Andrews, the first vice president. It is generally understood that this conference took place at the metropolis so that the officials could keep in touch with those who have the largest financial interest in the road.

A high official of the Southern frankly admitted in the course of conversation that appeal to the federal courts in all the passenger rate cases was a mistake.

Those who promoted this course argued that it would be best for the railroads to go before the supreme court of the United States with a favorable decision, and the position was taken that such a decision would be the most likely given in the federal than in the state courts. The railroads recognize that they have lost any advantage they might have obtained from the federal injunctions given them, and what is still worse, they have aroused the hostility of public opinion. This they fear will be reflected at sessions of the legislatures in various states.

Given History Chair.

Jameson, of Mercer university, has announced the selection of Professor Carl Steed to fill the chair of history and economics at the Baptist institution, the naming of this brilliant instructor having but recently taken place, following the resignation of Dr. O. P. Chitwood, who has been connected with Mercer as professor in this chair for the past two years. Dr. Chitwood accepts the chair of history and economics in the university of West Virginia.

Happiness is the rebound from hard work.

Put your hand on one thing and bear down hard.

Eternal happiness is something more than the sun-grins.

When affection is dead quit hanging around its sepulchre.

"What is woman?" you ask. "Any man knows—Deity don't."

There is a kindness that requires the vigorous use of the club.

Even a poor idiot can live pretty well—if he'll get out and hustle.

"Knock and it shall be opened" is a phrase that doesn't refer to salvation every time. Ask hubby—he knows.

Why murmur? At last, happiness is only a little sunshine that breaks through the rift in the clouds that overhang you day by day.
